Full Stack: PHP, Laravel, JavaScript, ReactJS, HTML5, CSS3, AJAX, responsive web applications

WordPress: Custom websites, Elementor, Divi, WooCommerce, custom functionality, API integrations, troubleshooting, SEO

APIs & Integrations: REST, GraphQL, WebSockets, Meta APIs, Google Cloud, Jobber, GoHighLevel, Housecall Pro, HubSpot, Monday.com

Backend: Node.js, backend frameworks, MySQL, query optimization

Tools: Git, GitHub, deployment pipelines, documentation

Quality: Testing, debugging, performance optimization, code maintainability

PROFESSIONAL EXPERIENCE

Launch Smarter Inc. — Senior Full Stack Developer

Remote | 03/2026 - Present

- Created and maintained a lead distribution system integrating Jobber, GoHighLevel, Housecall Pro, HubSpot, and Monday.com, supporting approximately 10 leads per day for each customer.
- Developed connected admin and client dashboards to streamline lead management and improve the user experience across internal and customer-facing workflows.
- Designed custom WordPress websites and implemented requested functionality to meet specific client and business requirements.
- Integrated RESTful APIs between front-end and back-end systems and managed MySQL databases, including query optimization for application performance.
- Developed responsive web applications using HTML, PHP, CSS, and JavaScript frameworks with emphasis on maintainable code.

Proweaver Inc. — Senior Web Developer

Cebu City, Philippines | 12/2023 - 02/2026

- Led knowledge-transfer sessions and handled complex development tasks, including API integrations within WordPress environments, supporting team capability and specialized project delivery.
- Tested and debugged web applications to identify defects and resolve functionality or performance issues before delivery.
- Applied coding, structure, and documentation best practices to improve maintainability and supportability.
- Collaborated with cross-functional teams and designers to define requirements and implement UI/UX improvements across projects, supporting at least 10 websites per day.
- Optimized website performance through efficient coding and troubleshooting techniques, improving responsiveness and reliability.

Accenture Inc. — Intern

Cebu City, Philippines | 01/2023 - 04/2023

- Worked with Salesforce CRM and supported automation testing using Python and Selenium in an enterprise environment.
- Developed and executed test cases from project requirements and conducted software testing to identify bugs and support quality assurance.
- Maintained project timelines and deliverables to keep work aligned with stakeholder expectations.
